

ANCOVA of Change from Baseline at Week 20  
Missing Data Approach  
Analysis Population

	Baseline		Week 20		Change from Baseline		
Treatment	N	Mean (SD)	N	Mean (SD)	N	Mean (SD)	LS Mean (95% CI) <sup>a</sup>
Study Drug	61	16.6 (4.41)	61	-6.6 (5.95)	61	-7.0 (9.16)	-7.0 (-8.58, -5.38)
Placebo	70	18.4 (6.34)	70	-9.0 (7.04)	70	-8.7 (8.54)	-8.7 (-10.17, -7.18)
Pairwise Comparison				Difference in LS Mean (95% CI) <sup>a</sup>		p-Value	
Study Drug vs. Placebo				1.7 (-0.49, 3.88)		0.130	
Root Mean Squared Error of Change = 6.23							
<sup>a</sup> Based on an ANCOVA model.							
ANCOVA = Analysis of Covariance, CI = Confidence Interval, LS = Least Squares, SD = Standard Deviation
